

MATERIAL SAFETY DATA SHEET

Date of Issue: 14/01/2008

STATEMENT OF HAZARDOUS NATURE

Not classified as hazardous according to criteria of Work safe Australia.

COMPANY DETAILS

Company Jaegar Australia
Address: 2/9 Tower Crt, Noble Pk 3174
Telephone: (03) 9769-1788
Fax: (03) 9769-0655
Emergency Telephone: 0408 347 425

IDENTIFICATION

PRODUCT NAME: LISSAGLASS WS

Other Names:

Manufacturer's Code: LISSAGLASS WS

Un No: N/A

Dangerous Goods Class & Subsidiary Risk: N/A

Hazchem Code: N/A

Poisons Schedule: N/A

Use: Beer, spirits and soft drink machine glass washing Detergent.

PHYSICAL DESCRIPTION/PROPERTIES

Appearance: Blue Mobile Liquid
Melting Point: Not applicable
Vapour Pressure: Not available
Specific Gravity: 1.101
Flash Point: Not applicable
Flammability Limits: Not applicable
Solubility in water: Not available

Other Properties:

Corrosiveness: Not considered corrosive to metals.
PH (1% solution): <11.5

INGREDIENTS

Chemical name and CAS No as defined by the NOHSC Code 1008 list all hazardous substances. Other ingredients which are determined to be non-hazardous are listed by generic name or as "other ingredients determined not to be hazardous".

CHEMICAL NAME	CAS NO	PROPORTION
Water	7732-18-5	Very High
Alkaline Salts	N/A	Low
Anionic/non-ionic surfactant blend	N/A	Low
Sodium Hydroxide	1310-73-2	Low
Green Dye	N/A	Very Low

HEALTH HAZARD INFORMATION

Health Effects

Acute: No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms that may arise if the product is mishandled are:

SWALLOWED: Swallowing can result in nausea, vomiting and irritation to the mouth, throat and stomach.

EYE: A mild eye irritant.

SKIN: Contact with the skin may result in irritation. Will have a degreasing action on the skin. Repeated or prolonged skin contact may lead to irritant contact dermatitis.

INHALED: Where this material is used in a poorly ventilated area or at elevated temperatures or confined spaces, vapour may cause irritation to mucous membranes and respiratory tract, headache and nausea. Inhalation of mists may produce respiratory irritation.

FIRST AID

SWALLOWED: Contact a doctor or Poisons Information Centre. Rinse mouth with water. Give plenty of water to drink. Seek medical assistance.

EYE: Remove contact lenses if worn. Irrigate with copious quantities of water for at least 15 minutes. In all cases of eye contamination it is a sensible precaution to seek medical advice.

SKIN: Remove all contaminated clothing and footwear. Wash contaminated skin with plenty of water. Wash all contaminated clothing before re-use. If irritation occurs seek medical advice.

INHALED: Remove victim from exposure – avoid becoming a casualty. Seek medical advice if effects persist.

First Aid Facilities: Fresh water.

Note to Doctor: Treat symptomatically and as for exposure to alkaline materials

PRECAUTIONS FOR USE

EXPOSURE: No value assigned for this specific material by the National Occupational Health and Safety Commission. (Worksafe Australia)

ENGINEERING CONTROLS: Natural ventilation should be adequate under normal use conditions. Keep containers closed when not in use.

PERSONAL PROTECTION: OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVE (S). Avoid eye and repeated or prolonged skin contact. Wear overalls, safety glasses and impervious gloves. Always wash hands before smoking, eating, drinking or using the toilet.

FLAMMABILITY: Not flammable or combustible

SAFE HANDLING INFORMATION

STORAGE & TRANSPORT: Store away from foodstuffs and strong acids. Keep containers closed at all times – check regularly for leaks. Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by road or rail.

SPILLS & DISPOSAL: Slippery when spilt. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contamination. Contain. Prevent run off into drains and waterways. Use absorbent material (soil, sand or other inert material). Collect and seal into properly labelled drums for disposal. Wash down area with excess water. Refer to State Land Waste Management Authority. Normally suitable for disposal at approved land waste site.

FIRE/EXPLOSION HAZARD: Non-combustible material. However following evaporation of aqueous component residual material can burn if ignited. Fire Fighters to wear self-contained breathing apparatus if risk of exposure to vapour or products of combustion. Suitable extinguishing media is water fog (or if unavailable fine water spray), foam, dry agent (carbon dioxide, dry chemical powder)

OTHER INFORMATION:

The Peak Limitation quoted above is the Work safe Adopted National Exposure Standard for the maximum or peak airborne concentration over the shortest analytically practicable period of time, which does not exceed 15 minutes.

This MSDS is valid for five years from date of issue but readers should contact Jaegar Australia to ensure that this is the latest issue. As per the Work safe Guidance Note NOHSC 3017, each user should review the information in the specific context of the intended application.
