

Full Product List

***"A unique company providing effective
environmental customized solutions"***

www.jaegaraustralia.com.au

Jaegar Australia's successful enterprise began in 1979, and quickly became one of Australia's foremost 'creative formulators' of quality Sanitizers, Detergents, Graffiti Removal solutions and Agricultural Fungicides.

In 2011, Jaegar Australia was purchased by AJL8 Enterprises Pty Ltd. Jaegar is now under a completely "NEW MANAGEMENT STRUCTURE" focusing foremost on 'Product Performance' through its **ISO9001** accreditation and a strong 'Customer Satisfaction' goal.

AJL8 Enterprises, since taking over Jaegar Australia has begun a 'product rationalization' process through 'production improvements' and so begun to implement a completely different business operation philosophy.

AJL8 Enterprises's philosophy for Jaegar is based on providing reliable, honest, cost competitive and fully effective products to business, and consumers. Our **ISO9001** accreditation provides a frame work for reliability, utilising this is how we make it happen. Customer service is based on honesty and reliability through consultation to find the most cost effective and operationally suitable products that fit the intended end use and goal.

We specialise in bespoke products and excel in developing and producing cutting edge formulas for industries who appreciate an awareness of the environment and our innovative approach to research and development. All our qualified chemical industry professionals work in conjunction with you, our customers, providing solutions to your individual needs.

Talk to US about our Current NEW developments.

Food Industry Cleaners & Sanitisers

CS-100 CLEANBOWLED

Clean- bowled is a Heavy Duty Toilet Bowl Cleaner made from two Acidic components combined with a Quat which thoroughly cleans your toiletry system. Clean Bowled completely disinfects and eliminates malodours in the system.

CS-101NF OASIS

OASIS is a clear liquid cationic detergent sanitiser recommended for use in food processing industries wherever it is desired to render all hard surfaces physically clean and free from most common bacteria. food processing equipment such as filling machines, holding tanks, cookers, and syrup tanks, boning tables, cutting implements, eviscerating tables, conveyor belts and mixing pans.

CS-102-1 CHLOR-DET

Chlor Det is a powder Chlorinated Cleaner Sanitiser used wherever there is a need for a general purpose cleaner, sanitiser in food processing industries. Chlor-Det is stabilised chlorine content of which remains locked into companion detergent components until dissolved in water.

CS-104 CHLOR-SAN

CHLOR-SAN CS-104 is a powder Chlorinated Sanitiser. Which is designed to produce a very broad spectrum of activity in the general disinfection of plant and equipment used in the poultry and dairy industries and is also used in footbaths for the prevention of transfer of disease for one site to another.

CS-105 QUAT-SAN

Quat San is a clear liquid cationic germicide, indicated for use in food processing areas where it is imperative that bacterial counts are reduced to an absolute minimum.

CS-105-5 ANTIBAC- QUAT

Cat Quat San is a clear liquid complete cationic germicide. Formulated from a rage of Quat Ammonium Cpd's & food grade Ethanol based compounds giving a germ free reliability. CS-105-5 is indicated for use in food processing areas where it is imperative that bacterial counts are reduced to an absolute minimum.

CS-106A CHLOR CLEAN

Chlorinated High Foaming Detergent designed for the safe removal of organic soils eg. Animal fats and vegetable oils from all surfaces. Chlor-Clean can be used for foam cleaning or hand washing of equipment such as holding tanks, filling machines, kettles, floors, walls, pipes, tables, conveyor belts and other surfaces to be cleaned.

CS-107 HI-CHLOR

Chlorinated / Caustic Based Foam Cleaner designed for the safe removal of organic soils eg. Animal fats and vegetable oils from all surfaces. Chlor-Clean can be used for foam cleaning or hand washing of equipment such as holding tanks, filling machines, kettles, floors, walls, pipes, tables, conveyor belts and other surfaces to be cleaned.

CS-109 ANTIBAC-SAN

Detergent/Sanitiser CS-109 is a cleaner sanitiser, which meets T.G.A requirements for use in hospitals and operating theatre's, and has Aqis approval for use in all food processing areas. Providing potent anti-bacterial activity against a wide range of pathogenic micro-organisms. Available in: CITRUS / LAVENDER / GREEN FOREST / UNSCENTED

CS-110 TURBO-SAN

Chlorinated Cleaner/Sanitiser with AQIS approval. Turbo-San contains several ingredients with potassium hydroxide allowing it to emulsify fats and oils readily. Being an extremely high foaming cleaner producing a very thick and stable foam allowing sufficient time for complex surfactant system and high alkalinity to loosen and remove soils completely.

CS-111 IODO - SAN

Iodine Based Sanitiser IODO- SAN. Designed to produce a very broad spectrum of activity in the general disinfection of plant and equipment used in the poultry and dairy industries. IODO-SAN is a supremely effective broad spectrum iodine sanitiser designed to eliminate gram positive and gram negative bacteria from all food contact surfaces.

CS-114 CHLOR-SAN

Chlor-San CS-114 is a pink powder, which has the properties of a general purpose cleaner and a bactericide in the one application.

CS-116 CARCASS-SAN

Carcass Sanitizer CS-116 is a clean, non-foaming biodegradable Sanitizer formulated to reduce bacterial load on the surface of the carcass prior to export.

CS-117 DISINFECTANT /AIR FRESHENER

Disinfectant / Air Freshener CS-117 is a fresh pleasant smelling deodorant disinfectant giving anti-bacterial activity against a wide range of pathogenic microorganisms.

CS-155 CLEAN CQ

Clean CQ is a clear liquid cationic germicide, indicated for use in food processing areas where it is imperative that bacterial counts are reduced to an absolute minimum. Clean CQ is a formulation of quat based & alkaline surfactants.

CS-888 MULTI CLEAN

Multi Clean is a clear red liquid is a blend of alkaline surfactants and organic solvents formulated to remove the toughest stains with the added benefit of quick drying. This makes MULTI CLEAN perfect for All Round Cleaning.

FBS-777 FOOT BATH SANITISER

Footbath Sanitizer is a clear liquid cationic germicide, indicated for use in food processing areas where it is imperative that bacterial counts are reduced to an absolute minimum.

GP-123 TURBO-ZYME FOAM CLEANER

GP-123 is an Enzyme based foam cleaner designed for the safe removal of organic soils e.g. Animal fats and vegetable oils from all surfaces. Turbo-Zyme can be used for foam cleaning or hand washing of equipment such as holding tanks, filling machines, kettles, floors, walls, pipes, tables, conveyor belts and other surfaces to be cleaned.

RS-108 ACIDIC QUAT

Acidic Quat San is a clear liquid cationic germicide. Formulated from a combination of acids and Quat Ammonium Cpd's. This is a formula that will remove stone and sanitise at the same time. Ideal to Milk/ Wine tanks where it is imperative that bacterial counts are reduced to an absolute minimum.

CIP Cleaners & Sanitisers

HT-103 C.I.P. 103

C.I.P. 103 is low foam, extremely-heavy duty caustic -based detergent powder specifically designed to remove stubborn soils. It is recommended for use in milking plants in large bore milk lines, loop lines, plate coolers and third line cleaning.

HT-104 EMULSIFIED C.I.P. (POWDER)

Powdered Heavy duty, low foaming alkali cleaner. HT-104 is low foam, heavy duty caustic based detergent powder specifically designed to remove stubborn soils.

HT-108 EMULSIFIED C.I.P (LIQUID)

HT-108 is a: A blend of caustic and heavy-duty alkaline salts designed to remove all soils and hard water deposits. HT-108 high alkalinity raises the pH, improving cleaning action, by emulsifying oils and allowing soils to be removed quickly from all surfaces. It is highly sequestered.

HT-110 CLEAN SKIN

CLEAN SKIN HT-110 is a blend of caustic and heavy-duty alkaline salts designed to remove all soils and hard water deposits from all surfaces. Especially formulated for cleaning of wine holding tanks.

HT-115 SHOCK PACK

Shock Pack is a blend of caustic and heavy-duty alkaline salts designed to completely remove all missed built up soils and hard water deposits from all surfaces.

PERFOAM

Perfoam is a proxy acid based cleaner/sanitiser effective at killing Salmonella, Escherichia coli & Staphylococcus. Specifically designed for use in Breweries, Dairies, Meat and all Food Processing Plants.

PTSAN 5 SANITISER

PTSAN 5 Sanitiser is a per acidic based clear non-foaming, non-residual sanitizer for use in wineries, breweries, dairies, laundries and all food processing plants. PTSAN 5 is recommended for use in any area, which requires the immediate reduction of microbial contamination. PTSAN is effective at killing Salmonella, Escherichia coli & Staphylococcus. PTSAN 14 & PTSAN 15 Sanitisers also available.

RS-103 STONED C.I.P (POWDER)

RS-103 is a low foaming high strength powdered acid cleaner designed for the removal of mineral soils from stainless steel food processing equipment. RS-103 general application in the dairying industry for the removal of milk stone and hard water deposits from all processing areas.

RS-104 ACID-SAN

Acid Sanitiser RS-104 a concentrated per acidic C.I.P. detergent formulated from peracetic & phosphoric acids for use in fermenters, beer and milk storage vessels and equipment. Acidic C.I.P. for the dairy and brewing industry.

RS-105 STONED (LIQUID)

RS-105 is a concentrated acidic C.I.P detergent for use in fermenters, beer and milk storage vessels and equipment. Is a mixture of concentrated acids allowing it to be used at low concentrations increasing cost effectiveness. RS-105 has a efficiently high detergency enabling it to wet and remove proteaceous soils quickly & efficiently sanitising.

General Purpose Cleaners

CS-112 TEK-SAN-DOMESTOS

TEK-NAL is a clear blend of alkaline detergent and wetting agents combined with water soluble solvents designed to remove a wide variety of soils from hard surfaces.

CS-117 DISINFECTANT / AIR FRESHENER

CS-117 is a fresh pleasant smelling deodorant disinfectant giving a potent bacterial compound to provide anti-bacterial activity against a wide range of pathogenic microorganisms.

GP-200 GENERAL X

GP-200 is a Heavy Duty Non Caustic Detergent Concentrate which is specifically formulated to cater for the cleaning needs in dairies and all milk and food industries. It utilises superior detergent technology to ensure an effective and economical cleaning system.

GP-203 MULTI-PURPOSE CLEANER

GP-203 the multi-purpose spray-on wipe-off water soluble industrial cleaner is a light blue, clear liquid cleaner especially formulated to effortlessly and instantaneously cut through and remove a wide variety of unwanted soils from almost any hard surface. Water soluble, non-caustic, non-acidic, non-toxic and non-flammable.

GP-205 UNI-WASH 205

Uni-Wash is a strong complex blend of alkaline detergents, caustic base, wetting agents and sequestrants combined with water soluble solvents designed for the removal of a wide range of soils from hard surfaces.

GP-206 DEGREASER 206

Heavy Duty Degreaser for water insoluble grease, food oils and non-caustic. 206 is a clear blend of alkaline detergent and wetting agents designed to remove a wide variety of soils from hard surfaces. E.g. floors, walls and cooking filters.

GP-215 EXCEL SUPER

Excel Super is a caustic based degreaser specifically blended and designed to remove the most extreme soil from floors & hard surfaces.

GP-215 EXCEL SUPER (F)

Excel Super is a clear blend of alkaline detergent and wetting agents combined with water soluble solvents designed to remove a wide variety of soils from hard surfaces. E.g. floors, walls and cooking filters.

GP-219 NEUTRA - DET 219

Neutra-Det GP-219 is a PH Neutral blend of an ionic and non-ionic surfactants designed to remove a variety of soils.

GP-255 UNI-CITRUSWASH

Uni-CITRUSWash GP-255 is a complex blend of alkaline detergents, wetting agents and sequestrants combined with unique mixture of Citrus & water soluble solvents designed for the removal of a wide range of soils from hard surfaces.

HT-111 SMOKE HOUSE CLEANER

Smoke House Cleaner HT-111 is a: A blend of caustic and heavy-duty alkaline salts designed to remove all soils and hard water deposits from all surfaces.

KD-111 ENFORCED 100%

Enforced 100% KD-111 is a: A blend of caustic and heavy-duty alkaline salts designed to remove all soils and hard water deposits from all surfaces. Also available; Enforced 50% KD-111D

KD-109 ALL ROUNDER

General Purpose Detergent KD-109 is a general-purpose detergent designed to remove animal fats and vegetable oils from all hard surfaces used throughout the food industry. Equipment such as holding tanks, filling machines, chill rooms, chutes, kettles, floors, wall pipes, tables, vehicles and other surfaces, which need to be cleaned manually.

Glass Cleaners Hotels & Restaurants

BG-100 BEER GLASS CLEANER

Lissaglass is a high performance liquid detergent specially formulated for cleaning GLASS water storage bottles. Lissaglass is effectively and economically removes all deposits fat, food, lipstick soils. Leaves glasses clean and bright, free from streaks and taint. Its low alkali salts content ensures that it is not classified as a scheduled poison.

BG-101 PLAS-TEC

PLAS-TEC is a fully effective liquid detergent specially formulated for cleaning Plastic Water storage bottles. PLAS-TEC is effectively and economically removes all deposits fat, food, lipstick soils. Leaves glasses clean and bright, free from streaks and taint. Its low alkali salts content ensures that it is not classified as a scheduled poison.

BL-200 BEER LINE CLEANER

Beer Line Cleaner 200 is a highly effective liquid cleaner specially formulated from alkaline salts for the cleaning of beer lines in pubs, clubs, motels and hotels. Key Properties of Beer Line Cleaner 200 is specially formulated for the removal of beer stone and other deposits from the interior surfaces of beer lines.

Conveyer Belt Chain Lubricants

CL-100-S CHAIN LUBRICANT

Chain Lubricant formulated for large bottle conveyers. CL-100 is soap based clear liquid readily miscible with both Hard and Soft water to produce a low foaming lubricant, sanitiser and cleaner for the use in the soft drink, brewing and other food industries.

CL-101-A CHAIN LUBRICANT

Chain Lubricant formulated for large bottle conveyers. CL-101 is amine based clear liquid readily miscible with HARD water to produce a low foaming lubricant, sanitiser and cleaner for the use in the soft drink, brewing and other food industries.

Kitchen Detergents

KD-100 PREMIUM

Premium is a multi-purpose concentrated synthetic detergent ideally suited to all types of hard surface cleaning. It is particularly recommended for the hand washing of dishes, cutlery and glassware where an efficient but gentle low-alkaline cleaner is required.

KD-101 SPARKLE

Sparkle represents the latest in machine dishwashing technology and performs two important functions. Ensures outstanding cleaning of dishes, glasses and cutlery with every wash. Minimises and controls unwanted scale build-up and staining on the inside of the machine.

KD-102 SPOTLESS

Spotless is an economical chlorinated liquid machine dishwashing detergent suitable for use in soft or hard water conditions. Exhibits all the benefits and all the horsepower usually associated with concentrated powders. Together with all the advantages of liquid providing thoroughly clean dishes, glasses and cutlery right throughout the working day.

KD-103 GRILLTEC

Hot Plate & Oven Cleaner. Grill-Tech is an economical mixture of water soluble solvent with 6% sodium hydroxide ideal to remove baked on food scraps on your hot plate or in your oven.

KD-105 RINSE AID

Rinse Aid is a concentrated viscous purple liquid specifically formulated to provide spot free rinsing and drying of tableware when used in conjunction with Jaegar's machine dishwashing detergents and machines which provide a minimum rinse temperature of 82°C.

KD-107 WINDET

Windet is formulated from a collection of high performance industrial solvents. All are relatively water soluble, biodegradable. Windet is a streak free formulation ideal for glass cleaning.

KD-110 COUNTRY FRESH

Country Fresh is a Cost Effective general purpose liquid detergent with the fragrance of lemon fresh Clear, bright yellow viscous liquid with a fresh non-residual fragrance.

KD-222 FLOOR DET

Chlorinated High Foaming Detergent. An amber liquid designed for the safe removal of organic soils eg. Animal fats and vegetable oils from all surfaces. Floor Det can be used for hand washing of equipment such as holding tanks, filling machines, kettles, floors, walls, pipes, tables, conveyor belts and other surfaces to be cleaned.

Hand Cleaners

CS-122 EPI SAN

Epi-San is a Anti-Bacterial Hand Sanitiser for the Hospitality and Hospital industry. Epi-San is a clear, odourless gel, developed by Jaegar Australia's laboratories to aid in the prevention of cross-contamination by hands throughout the hospitals and hospitality industry. Pre-packaged or bulk fill dispensers.

GP-207 PEARL

Pearl Skin Cleanser GP-207 is formulated to produce a firm, copious lather whilst at the same time providing a gentle yet thorough cleaning action of the hands.

GP-208 MEDI WASH

Medi-Wash Anti-Bacterial Hand Cleaner. Medi-Wash is a pearly white, odourless liquid, developed by Jaegar Australia's laboratories to aid in the prevention of cross-contamination by hands in the food processing industry. Pre-packaged or bulk fill.

GP-212-1 BIG WHITE GRIT

A heavy duty hand cleaner designed for everyday use without damaging the skin. Grit Hand Cleaner contains a natural scrubbing agent, and is formulated to produce a firm, copious lather providing a gentle yet thorough cleaning action without drying the skin.

GP-213 BIG RED

Big Red Non-abrasive, Non solvent Hand Cleaner. Big Red Hand Cleaner is formulated to produce a firm, copious lather providing a gentle yet thorough cleaning action without drying the skin

GP-216 PINK SILK

Pink Slink Hand Cleanser GP-216 is pink coloured viscos which is formulated to produce a firm, copious lather whilst at the same time providing a gentle yet thorough cleaning action of the hands.

Defoamers

DF-100 DE FOAM DE STARCH

Defoamer 100 is a high performance Non-Food grade antifoam for the food, pulp & recycling industries.

DF-310 DE FOAM DE STARCH

Defoamer 310 is a high performance food contact grade antifoam for food processing and manufacturing use. Defoamer 310 is simply added to the solution that needs to be defoamed.

Laundry Detergents

LD-101 ECO-TUFF (BREAK)

Liquid Laundry Detergent – Caustic. Eco-Tuff Liquid Laundry Detergent additive LD-101 is a specially formulated heavy-duty laundry detergent designed to remove mineral and vegetable oils, protein and blood stains, a variety of soils commonly found on laundry from food and engineering industries.

LD-102 ECO-SOFT

Eco Soft LD-102 Concentrated fabric softener and conditioner leaving linen and uniforms feeling soft and fragrant. Minimises wrinkling and static electricity.

LD-103 ECO-SOUR

Laundry Sour containing Acetic Acid. Eco Sour is a concentrated sour used to neutralize excess alkalinity and improve washing results by reducing laundry costs and fabric wear.

LD-104 ECO WHITE. P.

Powered Chlorine Bleach Eco-White is professionally formulated powdered laundry bleach designed to use in semi-commercial and commercial laundry machines for removing stains from cotton garments and fabrics. It is also particularly suitable and effective in the removal of obstinate stains from cotton articles using the controlled soak method.

LD-105 ECO-BLEACH. P.

Peroxide Bleach 50%. Eco-Bleach LD-105 is a colourless liquid designed to achieve superior bleaching on both white and coloured fabrics.

LD-106 ECO CHLOR

Liquid Chlorine Bleach. Eco-Bleach LD-106 is a yellow liquid designed to achieve superior bleaching on both white and coloured fabrics. When used properly it will improve whiteness, brighten coloured fabrics and eliminate yellowing of resin treated fabrics.

LD-107 NAPPY BLEACH. P.

Powered Perborate/Nappy Wash. Nappy Bleach is professionally formulated powdered laundry bleach designed to use in semi-commercial and commercial laundry machines for removing stains from cotton garments and fabrics.

LD-108 PRE WASH SPOTTER

Prewash Spotter. Emulsifier. Pre-Wash Spotter LD-108 is an amber coloured liquid designed as an aid to the removal of oil and grease from cloth e.g.: workers overalls etc.

LD-109 THE WOOL WASH

The WOOL Wash LD-109 is a Pale Green Liquid designed as to add that supreme comfort feeling back to wool, just as it felt the day you purchased your garment.

LD-110 ECO-BRIGHT. P.

Powered Commercial low foam laundry detergent. ECO-BRITE is a specially formulated heavy-duty detergent designed to remove mineral and vegetable oils, protein, blood stains, and a variety of soils commonly found on laundry from food and engineering industries.

LD-110-1 OCEAN BLUE. P.

Ocean Blue LD-110-1 is a specially formulated heavy-duty detergent designed to remove mineral and vegetable oils, protein, blood stains, and a variety of soils commonly found on laundry from food and engineering industries.

LD-111 SUPER WASH

SUPER-WASH is a strong heavy duty clear viscous liquid consisting of a biodegradable surfactant system, builders and optical brighteners producing excellent results on all washable fabrics.

LD-112 ENZYMATIC LIQUID LAUNDRY DETERGENT

LD-112 is a specially formulated heavy-duty Liquid detergent designed to remove mineral and vegetable oils, protein, blood stains, and a variety of soils commonly found on laundry from food and engineering industries.

LD-117 PEROXY – WHITE.

LD-117 is a peroxy acid based cleaner/sanitiser designed for use in an alternative to sodium hypochlorite for the whitening of your clothes.

Solvents

SS-101 J-SOLVE

J-Solve is indicated for use wherever there is a need to remove oil, grease and similar soils from metal surfaces with the highest possible degree of efficiency and operating safety. J-Solve is a non-residual safety solvent. Corrosion-safe cleaning of aircraft components. Cleaning and maintenance of switchboards, electric motors, generators, switch gear and control panels. Cleaning of typewriters, copying machines, accounting machines and addressograph plates. Mould and dye cleaning.

SS-102 MEK

Methyl Ethyl Ketone is a speciality solvent for nitrocellulose, paint removers and printing. Methyl Ethyl Ketone is used as a solvent for lacquers, adhesives; for cleaning materials to be electroplated; for degreasing; in rubber and rubber cement, printing inks, paints, wood stains, varnishes and paint removers and in cleaning solutions; as a catalyst; and as a carrier.

SS-103 SAFETY-SOLVENT

Naturally occurring organic solvent Safety-Solvent is indicated for use wherever there is a need to remove oil, grease and similar soils from metal surfaces with the highest possible degree of efficiency and operating safety.

SS-104 CITRA-SOLVE

SS-104 is a naturally occurring organic solvent indicated for use wherever there is a need to remove oil, grease and similar soils from metal surfaces with the highest possible degree of efficiency and operating safety.

Hot & Cold Tank Degreasers

DD-103 COLD TANK DEGREASER/DECARBONISER

DD-103 is a cold tank immersion paint remover, degreaser and decarboniser and is designed for use wherever there is a need to remove a wide variety of paints, oils and other organic coatings from ferrous and non-ferrous metals.

HT-100-P HOT TANK DEGREASER

Degreaser & Decarboniser HT-100 is a free flowing alkaline powder designed for the efficient cleaning of internal combustion engine components manufactured from non-ferrous (Aluminium & zinc) metals prior to engine reconditioning.

HT-101-P HOT TANK DEGREASER

HT-101 is a Caustic degreaser, decarboniser & stripper efficient at cleaning of internal combustion engine components. HT-101 is specifically formulated with co-solvent properties that rapidly removes carbonized oil and gums and assists in softening harder forms of carbon deposits. HT-101 is a technically developed combination of sequestrants and metal passivators that produces "as new" appearance on cleaned parts.

HT-105 RIPPER

HT-105 is a Caustic Based degreaser and rust remover. A major application for HT-105 is it specially formulated for the Hook Cleaning Procedure to ensure the removal of fats, rust and scale from beef rollers and mutton slides in abattoirs:

HT-105 KW OSG ALKALI DEGREASER

HT-105 KW is a Heavy Duty Caustic Based degreaser and rust remover. A major application for HT-105KW is the removal of grease, rust and scale from all types of ferrous metal engine parts.

Graffiti Treatment

GR-104 GRAFFITI REMOVER (IN.)

Graffiti Remover 104 is a non-toxic biodegradable graffiti remover formulated to remove all types of graffiti from surfaces. Originally designed for exterior use on trains general purpose on hard surfaces.

GR-108 GRAFFITI REMOVER (EX.)

Graffiti Remover 108 is a biodegradable graffiti remover formulated to remove all types of graffiti from Trains (stainless steel), brick and cement surfaces.

Ask about our NEW Developments.

Rust Preventative & Removers

RP-101 INHIBITOR

INHIBITOR is a brown emulsified liquid designed for temporary rust prevention and light lubrication. Provides effective rust prevention and lubrication on beef rollers, mutton slides and gambrels by leaving a protective coating that is dry to touch.

Rust Remover

RS-100 D-RUST & D-SCALE

D-Rust & D-Scale is used as an immersion or paintable rust and scale remover it is a green liquid acidic detergent designed to remove rust and oxides as well as light oily soils from ferrous metals. Phosphoric Acid Rust Remover AQIS APPROVED for Hook room cleaning in Abattoirs.

RS-101 COMPLETE RSC

Complete RSC is a Rust & Scale remover is used as an immersion or paint-able rust and scale remover it is a green liquid with a high level of acidic salts combined with a strong detergent that is designed to remove rust and oxides as well as light oily soils from ferrous metals. Complete RSC has a higher Phosphoric Acid content than RS-100 with Degreasing Ability.

Maintenance

DC-100 DRAIN SAN

Drain San has been specifically formulated as abacteriological drain cleaning, collection pit and septic treatment compound and optimum drain cleaning solution and a sanitiser built in to complete the job.

IGW-777 IGLOO WASH

Igloo wash is an all-round out-door cleaner. A mix of strong acid and surfactants formulated to clean lime wash from igloos at summer end. It is perfect for cleaning your stained Concrete, brickwork and patio's

MR-100 CEMENT MOULD RELEASE

MR-100 Mould Release is a fine particle size aqueous emulsion of a special mixture of a group of fatty acid esters.

RS-106 ALUMIN

ALUMIN Is a Stainless Steel Cleaner & Brightener that has a wide range of applications; it is most commonly used on aluminium containers, aluminium and stainless steel vessels. Aluminium & Stainless Steel Cleaner Brightener.

RS-114 TOMBSTONE

Tombstone is a formulation of ammonium fluoride & ammonium hydrogen fluoride that will remove all scum, moss, stains, tarnish and bird droppings from your treasured tombstone.

TR-100 TAR-CLEAN

Tar clean is currently under development. Trials are under way on 2 types of formulations mainly around a thickened solvent based and a water base formulation.

Maintenance & Automotive Solutions

BC-100 DRUM CLEAN SAFE

Drum Clean Safe replaces hydrochloric acid in the concrete industry. Drum Clean Safe removes concrete splash and cement dust residues from vehicles and other surfaces such as pre-mix concrete agitators, level screeders and concrete pumps. Drum Clean Safe has been formulated as an organic product is a safe alternative to the use of Hazardous concrete cleaning formulations. Drum Clean Safe has a unique cleaning action.

CTW-100 CAR & TRUCK WASH

CTW -100 is a viscous green foaming solvent detergent based product formulated to remove dirt, light oils, coal dust and greases from vehicles, heavy equipment and work shop floors.

CTW-101 PREMIUM CAR & TRUCK WASH

A Premium, High Foaming Car & Truck Wash. CTW -101 is a viscous green foaming detergent based product that will remove dirt, light oils and greases from vehicles, heavy equipment and work shop floors. This formulation makes it suitable for cleaning all types of vehicles, boats windows and painted areas.

CTW-104 SPUNK – DIRT BUSTER

SPUNK is a powder formulation for high pressure cleaners. SPUNK is a concentrated universal powder concentrated cleaning power formulated to remove dirt, light oils, greases and dry cement from vehicles, and building equipment.

ES-705 MEAN & GREEN

Green and Mean Degreaser ES-705 is a clear liquid emulsifiable degreaser, designed where rapid dispersion of oil, grease and partially carbonised soils from metal or non-metal surfaces is required to be carried out by a cold process.

PS-100 ALUMINIUM PAINT STRIPPER (DIP TANK)

Is a straw colored Non Caustic hot tank organic liquid Pant stripping paste specially formulated to remove paint from non-ferrous metals.

PS-108 ALUMINIUM PAINT STRIPPER. (PAINT ON)

Is a straw colored thickened organic liquid Pant stripping paste specially formulated to remove paint from non-ferrous metals.

RS-113 TRAIN WASH

Train Wash RS-113 is a viscous foaming solvent detergent based product formulated to remove coal dust, light oils and greases from vehicles, heavy equipment and work shop floors.

SS-107EXP BRAKE/CLUTCH

Clutch & Brake Cleaner is a quick drying product formulated from a number of products including organic compounds, chlorinated solvent and chlorinated hydrocarbons which boast no 'flash point' and 'no fire point'. This gives SS-107 Exp an important advantage over petroleum distillates to ensure a safe and effective Brake & Clutch cleaner.

TB-100 TYRE SHINE

Tyre Shine is Hydrocarbon Silicon blend formulated to give a high gloss with a lasting shine.

TB-102 VINYL GUARD

Vinyl Guard TB-102 is an odourless liquid, white in colour, formulated from a silicon base of raw materials which gives strong protection with a high gloss and a lasting shine. TB-102 is not only protect your Vinyl dash is also fully effective Leather protector.

WF-100 WHEELIE FRESH

Wheelie Fresh WF-100 is a fresh pleasant smelling deodorant disinfectant containing a potent bacterial compound to provide anti-bacterial activity against a wide range of pathogenic microorganisms.

WSW-100 WINDSCREEN-CLEAN

A perfect highly concentrated liquid specifically designed to effectively remove those well-travelled windscreens.

Bulk Chemical Supplies:

- Acetic Acid
- Peracetic Acid
- Caustic Soda Pearl
- Hydrogen Peroxide
- Hydrochloric Acid
- Sodium Hypochlorite
- Caustic Soda,
- Sulphuric Acid
- Ethanol

At Jaegar Australia we have a established a strong buying presence in the market place in which we can pass on these bulk chemicals with our formulated products as a part of our overall service.

Available in 25, 205 & 1000 IBC's or bags, 10, 20 & 220 kg tubs or Pallets.

Added Services:

- Agricultural & Horticulture Products.
- Contract Manufacturing Available.
- JAEGAR AUSTRALIA's competitive advantage is being able to offer bespoke Product development & production at a market competitive price
