

SKIN-GUARD

Water Repellent Barrier Cream

BC-100

Description:

Skinguard Barrier Cream BC-100 is a white pearlescent viscous liquid used as a barrier cream on skin that is subjected to repeated contact with detergents and some chemicals.

Benefits:

- Skin-Guard protects skin and provides temporary relief from chafed, chapped and wind burned skin.
- Non-greasy and fragrance free.
- Contains silicone compounds to give a water repellent barrier.
- Reduces natural moisture loss from skin.
- Prevents the harsh and harmful effects of chemicals from a wide range of modern industrial environments.
- A safe but effective bactericide is included in this product to guard against infection from contaminated environments and cuts and scratches encountered during the working day.
- Replenishes the natural oils lost during the working day.

Directions for Use:

Skin-Guard BC-100 can be applied as frequently as required. The silicone protection will remain and not penetrate the skin but is easily removed when not required by the use of a liquid soap or waterless hand cleaner.

Precautions:

Avoid contact with eyes.

Do not ingest. Non-hazardous.

Low temperatures may cause increased viscosity.
