

CRÈME CLEANSER

Non Abrasive crème cleanser

CS-103

Crème Cleanser CS-103 is a free flowing crème cleanser formulated to effectively clean, disinfect and deodorize hard washable surfaces in one simple satisfying action. A mild gentle abrasive in the formulation quickly acts to break up and remove stubborn, hard soils and deposits without the harsh scratching often caused by powdered cleansers.

BENEFITS:

1. Powerful soil removing action – using a gentle rubbing action CS-103 quickly penetrates and dislodges hard soils and greasy deposits from a large selection of inert washable surfaces. Once loosened and dispersed the soils can easily be rinsed or wiped away.
2. Powerful surface disinfection – the presence of highly active diinfectants enables CS-103 to thoroughly clean and disinfect the surface in one simple action. CS-103 has been independently tested and validated for use as a hospital grade disinfectant under dirty conditions.
3. Shines and protects baths, basins, sinks, stoves, refrigerators, tiles, porcelain, stainless steel and chrome leaving surfaces bright, fresh and shiny.
4. Contains a fine mild and gentle abrasive designed and proven to quickly break up hard soil deposits without exhibiting harmful scratching frequently caused when using powdered cleansers. On laminated surfaces however, avoid prolonged rubbing on one spot.
5. CS-103 is packed in a convenient smart 500ml bottle with a flip top dispensing cap making application easy and accurate yet controlling overuse and unnecessary waste.
6. Where it is important to clean and disinfect in one action e.g. in hospital wards, bathrooms, showers etc. CS-103 is the most suitable product. CS-103 has particular application therefore, in clinics, medical centers, research laboratories and all types of public and private hospitals and similar health care institutions.
