

Chlor-San

Powdered cleaner /Sanitiser

CS-114

Chlor-San CS-114 is a pink powder, which has the properties of a general purpose cleaner and a bactericide in the one application.

Benefits:

1. Provides low "in use" costs for cleaning and sanitizing.
2. Free rinsing from all surfaces.
3. Readily soluble in hot or cold water.
4. Low foaming characteristics enables Chlor-San CS-114 to be used in re-circulating systems.
5. Safe on all metals used in the food processing industry.
6. Complex detergent system works equally well on animal fats, vegetable oils or proteinaceous soils.

Directions for use

Concentration – 6.25gm/L.

Time – (A) Manual application – leave solution on surface for a minimum time of ten (10) minutes. –

(B) Immersion application should be left in solution for five (5) to ten (10) minutes.
