

Carcass Sanitiser

Non-Residual- No Rinse Sanitiser

CS-116

Carcass Sanitizer CS-116 is a clean, non-foaming biodegradable Sanitizer formulated to reduce bacterial load on the surface of the carcass prior to export.

BENEFITS

- Effective against a wide range of contaminants including Aerobic and Anaerobic bacteria, spores, yeast, mould, fungi and viruses.
- Rapid in its action even at ambient temperature ideally 20°C.
- No rinse sanitiser spray on –leave on.
- Optimum efficiency obtained at pH 7.0 and at a dilution rate of 1:100.
- No rinsing is required if good drainage is available.
- Contains no surfactants, eliminating the need to post rinse Carcass Sanitiser CS-116 solution, drains freely leaving no residue.
- Safe on stainless steel plant and equipment. Not recommended for use on mild steel, copper or copper alloys.
- Reduces B.O.D. and C.O.D levels in plant effluent by direct chemical action.
- Effective against a wide range of pathogens eg. Salmonella typhimurium and enteritidis, Pseudomonas aeruginosa, Listeria monocytogenes, and E-Coli.

Directions for Use:

Spray carcasses with a 1-2% solution of Carcass Sanitiser CS-116 with a high pressure spray
