

Epi-San

Anti-Bacterial Hand Sanitiser for the Hospitality and Hospital industry

CS-122

PRODUCT DESCRIPTION

Epi-San is a clear, odourless gel, developed by Jaegar Australia's laboratories to aid in the prevention of cross-contamination by hands throughout the hospitals and hospitality industry.

APPROVALS & QUALIFICATIONS

Epi-San is approved by the Department of Primary Industry as a liquid hand soap type A for use in Export Establishments under its control.

FEATURES & BENEFITS

1. Epi-San gently cleans without de-fatting or drying the skin. Exhibits an emollient effect which moistures and leaves skin soft, smooth and supple.
2. Will not irritate, chap or roughen the skin.
3. Does not leave the hands feeling sticky or tacky after drying.
4. Biodegradable formula; does not contain any so-called "hard" detergents;
5. Pleasant and attractive to use;
6. Extremely economical in use; 1 litre of Epi-San provides 1,000 hand washes.
7. Flows easily and freely and will not block dispensers.
8. Air dries in seconds
9. pH balanced.

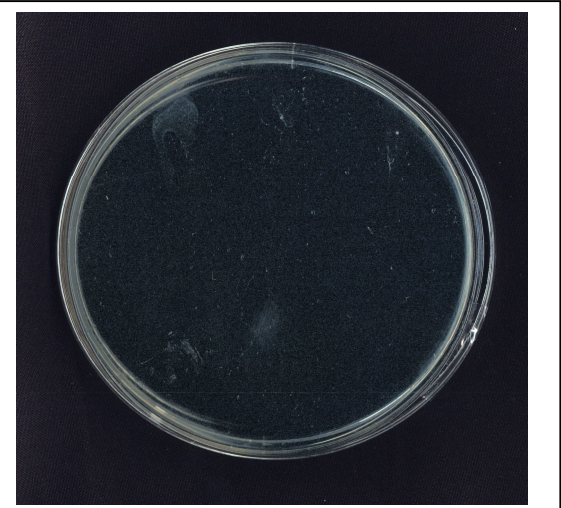

APPLICATION

Epi-San should be provided in all hospital wards, nursing stations, wash rooms, killing floors, boning rooms, small goods production, natural cheese production, bottling halls and fruit and vegetable processing areas.

All personnel whose hands may come into contact with food products should be encouraged to use Epi-San prior to entering food processing areas.

Before applying Epi-San
