

Tek-Sol LD-300 is a specially formulated heavy duty detergent designed to remove mineral and vegetable oils, protein, blood stains and a variety of soils commonly found on laundry from food and engineering industries.

Benefits:

- A unique surfactants system, which readily removes all oil, stains quickly and effectively.
- Complex wetting agents facilitates easy removal of stubborn soils and stains.
- Antideposition agents ensure that soil does not re-deposit on garments, leaving a clean wash.
- Optical brightener to provide that little extra to give clothes a brighter, fresher look.
- A concentrated, heavy-duty detergent recommended for the processing of whites, colours, cottons and synthetics.
- Excellent results in either hard or soft water at low to high wash temperatures.

Directions of Use:

Usage rates depend on the degree of soilage, type of machines and temperatures. Excellent

results will be obtained by adhering to the following recommendations.

<u>MACHINE</u>	<u>QUANTITY</u>
Domestic	¼ to ½ cup (1 cup = 200gm)
Semi Commercial	225 to 325gm per 45Kg dry cloth
Commercial	225 to 325gm per 45Kg dry cloth

Precautions

Avoid contact with skin and eyes. No special requirements for storage.
