

Peratec Fungicide

Powdery Mildew on Cucumbers

Peratec Fungicide utilizes peroxygen chemistry that is specific for agricultural field crops as well as greenhouse productions and post harvest storages. This is a new tool to fight against disease caused by fungi and microbial plant pathogens that will not leave toxic residues on the surface of the plant nor will it harm the environment or pose risk to human health and safety. It is a clear non-foaming biodegradable sanitizer for use on fruit and foliage, extremely effective on a variety of fungi at a dilution rate of 1:100.

Benefits:

- Extremely effective against a wide range of contaminants including Aerobic and Anaerobic bacteria, spores, yeast, mould, fungi and other viruses.
- Particularly effective in controlling the growth of organisms which are propagated by spores, and can be advantageously be used in control without resulting in the evolution of a resistant strain of the organism.
- Minimal contact time required 10 to 30 minutes depending on the degree of infection.
- Optimum efficiency obtained at a dilution rate of 1:100 to 1: 500.
- Produces a dramatic reduction in infection within 24hrs.
- Contains no surfactants, a neutral wetter may be used if necessary.
- Safe on stainless steel plant and equipment.
- **Non-Residual**, no M.R.L fruit or vegetables can be sprayed right up to day of harvest, leaves no lingering taste or smell..
- Spray to run off.
- Cost effective in use, 5/L of Peratec Fungicide to 500L of water.
- Environmentally friendly.

Directions For Use

Cucurbits	Powdery	1:100	Curative: Spray diseased plants using a 1:100 rate and continue treatments should infection re-occur. Preventive: Begin when plants are small. Apply first three treatments at 1:100, at 5 day intervals. Reduce rate to 1:300 after the completion of third treatment and maintain 5-day interval spray cycle until harvest.
	& Downy Mildew	1:100	
	Alternaria	to 1:300	
	Anthracnose		
	Pythium Rot		

Powdery Mildew before Treatment

Powdery Mildew 2 days after treatment with 1% Peratec Fungicide
