

C.I.P Acid/Sanitizer 104

Acidic C.I.P. for the dairy and brewing industry

RS-104

Acid Sanitiser RS-104 a concentrated acidic c.i.p detergent for use in fermenters, beer and milk storage vessels and equipment.

Benefits:

- Low viscosity liquid, designed for controlled use in all in all automatic dispensing systems. Eliminating the need for messy powdered products.
- Accurate dispensing of the liquid minimises the waste experienced in using powdered products.
- Waste minimisation means lower in use costs.
- Liquid dispensing eliminates the need for operator contact with chemicals reducing the risk of injury and improving occupational health and safety.
- Acid/Sanitise RS-104 is low foaming eliminating the problem of pump cavitation due to excessive foam.
- Acid/Sanitiser RS-104 has high detergency enabling it to wet and remove proteinaceous soils quickly and efficiently.
- Acid/Sanitiser RS-104 contains a highly efficient sanitising agent ensuring low bacterial levels.
- Acid /Sanitiser RS-104 is a mixture of highly concentrated acids allowing it to be used at low concentrations increasing cost effectiveness.

Directions for Use

Acid/Sanitiser RS-104 is used at the rate of 1.0-2.0% v/v.
