

DAIRY ACID 105

Acidic C.I.P. for the dairy and brewing industry.

RS-105

Dairy Acid RS-105 is a concentrated acidic C.I.P detergent for use in fermenters, beer and milk storage vessels and equipment.

Benefits:

- Low viscosity liquid, designed for controlled use in all in all automatic dispensing systems. Eliminating the need for messy powdered products.
- Accurate dispensing of the liquid minimises the waste experienced in using powdered products.
- Waste minimisation means lower in use costs.
- Liquid dispensing eliminates the need for operator contact with chemicals reducing the risk of injury and improving occupational health and safety.
- Dairy Acid RS-105 is low foaming eliminating the problem of pump cavitations due to excessive foam.
- Dairy Acid RS-105 has high detergency enabling it to wet and remove proteinaceous soils quickly and efficiently.
- Dairy Acid RS-105 contains a highly efficient sanitising agent ensuring low bacterial levels.
- Dairy Acid RS-105 is a mixture of highly concentrated acids allowing it to be used at low concentrations increasing cost effectiveness.

Directions for Use

Dairy Acid RS-105 is used at the rate of 0.5-3.0% v/v.
