

SANITEX

Technical Data Sheet

Code: WC-111

Description: Citric acid based liquid detergent cleaner with a biocide sanitiser

Application: **SANITEX** is a simple one process product that can be used clean mild films and protein stains from stainless steel wine storage vessels & sanitise the surface using a biocide action.

Directions for Use: **SANITEX** is used for CIP & SIP cleaning at 0.5-1.5% w/v concentration with water at 20-60°C, ideal at 40-50°C for 10-15 minutes.

An increase in water temperature is an increase cleaning effectiveness.
i.e. to hotter the water the less time need to clean, up to 60°C if available.

Bore or 'Hard' water may demand more **SANITEX**. Treated or tap water is recommended.
